

PRICE LIST

IVF WITH OWN OOCYTES		Price
IVF cycle with own oocytes	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval, sperm analysis and preparation, ICSI, extended cultivation, embryo transfer (cryopreservation of embryos, STDs and general anesthesia are not included)	2 550 €
IVF cycle without embryo transfer and freezing	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval, sperm analysis and preparation (ICSI, extended cultivation, STDs and general anesthesia are not included)	1 150 €
IVF cycle without oocytes suitable for fertilization	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval (STDs and general anesthesia are not included)	700 €
IVF with own frozen oocytes	Thawing of oocytes, sperm analysis and preparation, ICSI, extended cultivation, embryo transfer (cryopreservation of embryos and STDs are not included)	1 700 €
General anesthesia		150 €
STD	Sexually Transmitted Diseases testing	100 €
Extra Laboratory Services	Extended cultivation: Cultivation of embryos beyond 48 hours	300 €
	Intracytoplasmic Sperm Injection (ICSI): Up to 12 oocytes	450 €
	Intracytoplasmic Sperm Injection (ICSI): All other oocytes	220 €
	Continuous monitoring of embryo development (TimeLapse): Up to 16 embryos	250 €
	EmbryoGlue: Medium that supports implantation of the embryo	300 €
	Cryopreservation of embryos: 1-2 embryos + 1 year storage	350 €
	Cryopreservation of embryos: Each additional embryo	100 €
	Extension of frozen embryo storage for 1 year	150 €

PRICE LIST

MINIMAL STIMULATION		Price
Minimal stimulation IVF	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval, sperm analysis and preparation, embryo transfer (ICSI, extended cultivation, cryopreservation of embryos, STDs and general anesthesia are not included)	1 500 €
Minimal stimulation without embryo transfer and freezing	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval, sperm analysis and preparation (ICSI, extended cultivation, STDs and general anesthesia are not included)	800 €
Minimal stimulation without eggs suitable for fertilization	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval (STDs and general anesthesia are not included)	700 €
General anesthesia		150 €
STD	Sexually Transmitted Diseases testing	100 €
Extra Laboratory Services	Intracytoplasmic Sperm Injection (ICSI): One oocyte	100 €
	Extended cultivation (EC): Cultivation of embryos beyond 48 hours	300 €
	Continuous monitoring of embryo development (TimeLapse): Up to 16 embryos	250 €
	EmbryoGlue: Medium that supports implantation of the embryo	300 €
	Cryopreservation of embryos: 1–2 embryos + 1 year storage	350 €
	Cryopreservation of embryos: Each additional embryo	100 €
	Extension of frozen embryo storage for 1 year	150 €

NATIVE CYCLE		Price
Native cycle IVF	Consultation, treatment protocol, ultrasound check-ups, egg retrieval, sperm analysis and preparation, embryo transfer (ICSI, extended cultivation, cryopreservation of embryos, STDs and general anesthesia are not included)	1 050 €
Native cycle without embryo transfer and freezing	Consultation, treatment protocol, ultrasound check-ups, egg retrieval, sperm analysis and preparation (ICSI, extended cultivation, STDs and general anesthesia are not included)	800 €
Native cycle without eggs suitable for fertilization	Consultation, treatment protocol, ultrasound check-ups, egg retrieval (STDs and general anesthesia are not included)	700 €
General anesthesia		150 €
STD	Sexually Transmitted Diseases testing	100 €
Extra Laboratory Services	Intracytoplasmic sperm injection (ICSI): One oocyte	100 €
	Extended cultivation (EC): Cultivation of embryos beyond 48 hours	300 €
	Continuous monitoring of embryo development (TimeLapse): Up to 16 embryos	250 €
	EmbryoGlue: Medium that supports implantation of the embryo	300 €
	Cryopreservation of embryos: 1–2 embryos + 1 year storage	350 €
	Cryopreservation of embryos: Each additional embryo	100 €
	Extending storage of frozen embryos for 1 year	150 €

PRICE LIST

DONATED OOCYTES		Price
IVF cycle with donated oocytes	Consultation, treatment protocol, male partner's STD testing, sperm analysis, donor's stimulating medications, monitoring and compensation, ultrasound check-ups, donor's egg retrieval, ICSI, extended cultivation, embryo transfer (cryopreservation of embryos is not included)	4 950 €
Extra Laboratory Services	Continuous monitoring of embryo development (TimeLapse): Up to 16 embryos	250 €
	EmbryoGlue: Medium that supports implantation of the embryo	300 €
	Cryopreservation of embryos: 1-2 embryos + 1 year storage	350 €
	Cryopreservation of embryos: Each additional embryo	100 €
	Extension of frozen embryo storage for 1 year	150 €

DONATED EMBRYOS		Price
Frozen donor embryo transfer	1 donor embryo	1 550 €
	2 donor embryos	2 500 €
	1 donor embryo after genetic testing	2 200 €
	2 donor embryos after genetic testing	3 500 €

SOCIAL FREEZING		Price
Oocyte collection and freezing	Consultation, treatment protocol, stimulation, ultrasound check-ups, egg retrieval, cryopreservation of the oocytes (STD and general anesthesia are not included)	1 700 €
Cryopreservation of sperm	Maximum of 6 straws (STD and sperm analysis are not included)	200 €
General anesthesia		150 €
STD	Sexually Transmitted Diseases testing	100 €
Extra Laboratory Services	Extension of frozen oocytes / sperm storage for 1 year	150 €

FROZEN EMBRYO TRANSFER		Price
Frozen embryo transfer		650 €

INTRAUTERINE INSEMINATION		Price
Intrauterine insemination (IUI)		320 €

PRICE LIST

ANDROLOGY		Price
Sperm analysis	SPG	50 €
STD	Sexually Transmitted Diseases testing	100 €
Cryopreservation of sperm for following treatment	Cryopreservation of sperm within working hours (STD, sperm analysis and storage are not included)	200 €
	Cryopreservation of sperm during the weekend (STD, sperm analysis and storage are not included)	400 €
	Extension of frozen sperm storage for 1 year	150 €
Donor sperm		350 €
TESE/MESA	Testicular sperm extraction (does not include general anesthesia)	900 €
Sperm selection before oocyte fertilization	Magnetic-Activated Cell Sorting (MACS)	370 €
	Microfluidic Sperm Sorting (MFSS)	300 €
Sperm motility stimulation	Medium for stimulation of immobile sperm before fertilization	170 €
DNA fragmentation	DNA damage assessment in spermatozoa	170 €

GENETIC TESTING OF EMBRYOS (PGT)		Price
PGT of aneuploidy (PGT-A) and structural chromosomal abnormalities (PGT-SR) with NGS	PGT examination of aneuploidy in single embryo	400 €
PGT-M using karyomapping (incl. PGT-A)	Preparation for karyomapping	1 600 €
	Genetic examination of a single embryo	450 €
Biopsy		500 €
Genetic testing of frozen embryo	Thawing of 1-2 embryos, biopsy for PGT, recryoconservation of embryo(s), 1 year of storage	820 €
	Thawing of each additional embryo, biopsy for PGT, recryoconservation of the embryo, 1 year of storage	450 €
DNA amplification in a single embryo		40 €

PRICE LIST

OTHER		Price
Cell transport administration fee		150 €
Surgical hysteroscopy	Does not include general anesthesia	750 €
Diagnostic hysteroscopy	Does not include general anesthesia	550 €
Hysterosalpingo-foam sonography	Hy-Fo-Sy Exam Foam	250 €
GERT (Gennet Endometrial Receptivity Test)		450 €
Determination of ovarian reserve	AMH (Anti-Müllerian Hormone)	80 €
Application of intralipids		50 €
General anesthesia		150 €
